INTRODUCTORY

TO OUR PATRONS

Our new catalogue for Barbers' Chairs and Furniture will be found more complete than ever. We are handling the barbers' chairs and furniture manufactured by Theo. A. Kochs Company, of Chicago, and our line presents a great variety of styles, ranging in prices to suit all demands.

Kochs' Barbers' Chairs are celebrated all over the country for perfection in workmanship and finish, for simplicity of construction and for durability.

Our catalogue presents a number of new designs in Mirror Cases and Wall Fixtures. These will be found very modern and quite striking in appearance. Whenever you contemplate refurnishing your shop, we solicit an opportunity to quote you our prices. We are prepared to submit very reasonable figures on entire outfits and we are in position to make prompt shipment on very short notice.

We thank you for the generous patronage which you have bestowed upon us during the past, and, assuring you that we will do all in our power to merit your confidence in the future, we remain,

Yours truly,
T. NOONAN & CO.

TERMS

Our terms are cash, C. O. D., on all orders for Barbers' Chairs, Furniture, Bath Outfits or Plumbing Goods. We require a deposit as a guarantee that the goods will be taken on arrival. We can make liberal prices for cash, or we can offer you very reasonable terms on the instalment plan.

ESTIMATES

Upon complete outfits we can offer very liberal inducements, and we are always glad to furnish estimates or other information desired. Our facilities for immediately furnishing entire outfits are absolutely unequalled, and we know that our prices will be found as low as the lowest. Whenever you contemplate refurnishing your shop, let us hear from you and we shall be glad to submit our best offer.

SHIPPING INSTRUCTIONS

In ordering goods of us, please always be particular to state whether shipment is to be made by express or freight, and if you prefer to have shipment made over any particular line, please be careful to so state when ordering.

In ordering chairs or furniture, please state whether they are to be shipped by express or freight. In ordering chairs be careful to state what color plush or leather is to be used in upholstering.

We make no charge for boxing or cartage, and always secure for our customers the lowest rate of freight obtainable.

NOTICE

In shipping goods by express, C. O. D., we always send an itemized bill, but if any of our customers object to having this bill seen by the express agent, we will send it to them by mail. When shipment is desired in this way, however, it should be mentioned *each time* when ordering.

We are always very willing to correct any errors that have occurred through any oversight on our part, and we will consider it a special favor if our patrons will promptly call our attention to any orders that are not properly filled.

UPON the following pages we offer a line of Barbers' Chairs which is most complete and unequalled in variety and quality. We quote chairs which raise and lower or chairs which only revolve and recline, or which combine all these movements, and we quote chairs made of iron or wood. In short, anything and everything possible in the modern chair for the barber shop.

KOCHS' HYDRAULIC CHAIRS are truly HYDRAULIC

They are raised and lowered by oil, and must not be compared with cheap, unsatisfactory chairs which accomplish these movements with ratchets and springs. The operation of KOCHS' HYDRAULIC CHAIRS is simple in the extreme and both the raising and lowering movements are accomplished with a touch of the foot-treadle—a few strokes of the treadle raise the chair to the desired height. A pressure of the foot upon the treadle allows the chair to gradually descend; removing the foot from the treadle automatically locks the chair in its position. Nothing could be simpler. The machinery is truly hydraulic. There is nothing to get out of order.

OUR CHAIRS COST NO MORE than others. We shall be pleased to quote prices for cash, or will make liberal terms upon the instalment plan, and you will find that we can furnish you with better goods at prices and terms as favorable as others.

MIRROR CASE, No. 251

Made of quarter-sawn oak, golden finish. The entire lower part of this mirror case is covered with Italian marble, to which the porcelain enameled lavatories and white enameled cabinets with Italian marble tops are attached. Each washstand is fitted with basin cocks for hot and cold water, and shampoo cock with hose and sprinkler, Ideal waste, and nickel-plated supply and waste pipes with traps. B-veled French plates, 44 x 54 and 7 x 44. Five-foot space from center to center of each chair. Towel urns and shaving paper vases furnished as shown. The chairs illustrated above are the No. 3 Chairs, quoted elsewhere in this catalogue, and are not included in the price for the mirror case. Height of case, 9 ft. 9 in.

MIRROR CASE, No. 214

Made of quarter-sawn oak, golden finish. Size of French beveled plates, 36 x 40 and 15 x 36. Italian marble shelf. The workstands are very neat and practical and have a shelf for clean towels; a drawer fitted with Yale lock and a shallow slide drawer which is very handy for such tools as razors, combs and shears. The feet of the workstands are metal, oxidized copper finish. The Mirror Case is provided with a compartment at each end for the display of toilet articles. These compartments are fitted with plate-glass doors, furnished with lock and key. Bohemian glass shaving-paper vases and glazed earthenware towel urns are furnished with this case.

MIRROR CASE, No. 435.

Made of quarter-sawn oak of special selection, English finish. French beveled plates 54 x 54, connected by beveled plates 12 x 54, making a continuous glass effect. Italian marble top and Tennessee marble base are furnished. Movable workstands are provided, as shown, and these are fitted with Italian marble top and brass railing. With the mirror case we furnish a movable workstand for each chair and also towel urns for wet towels and shaving-paper vases for soiled shaving paper. The barbers' chairs shown above are the No. 2 chairs which are quoted elsewhere in this catalogue, and are not included in the price for the mirror case. Height of the mirror case, 8 feet 9 inches.

MIRROR CASE, No. 147.

This mirror case is elaborate in design and ideal in its arrangement. The pillars at each end and the wide expanse of mirror plates present an effect that is very imposing, and the absence of the regulation long marble shelf seen in the average shop is a feature that finds favor with many. Sufficient space is provided in the cabinets for tools and clean towels, and each is made with Italian marble shelf, providing shelf room for each barber. Towel urns are provided for wet towels and Bohemian glass vases for soiled shaving paper. At one end of the mirror case a cabinet is provided for displaying toilet preparations for sale, and this is fitted with a glass door and lock and key. Particular attention is called to the length of this mirror case, which, arranged for three chairs (as illustrated), is 19 feet 9 inches. This is longer than the average mirror case, and, where there is plenty of room, this will be found to be quite an advantage.

The mirror case is made of quarter-sawed oak of special selection, golden finish, and it is perfect in every detail. Only materials of the very best are used in its construction and the work upon it is done only by men of long experience. The beveled French mirror plates are 54 by 54 and 12 by 33, and are of the very best quality. The base of the mirror case is finished with Tennessee marble. Height of the mirror case, 8 feet 8 inches.
